 Title: Boldly going
  Authors: O'Grady B
  Source: Image Reps. vol. 5, no. 9, Sept. 1998, pp 22-23, 25
  Publication Year: 1998
  Document Type: Journal Article
  Language: English

  Abstract: **Image**   libraries, undergoing consolidation,· produce and
digitally deliver hundreds of thousands of high-quality **images** on paper,
the Internet, and CD ROM. Corbis, anticipating a mass consumer market for
 image   usage, does not neglect traditional print and manual delivery.
Getty **Images**   relies on the print **process** to set standards,
simultaneously developing their Web site, and online delivery of low- and
high...

... digital proofing should fuel convergence between digitised print and
electronic storage. Corbis and Getty are **developing   Web   sites**
encouraging customers to search via sophisticated keyworded search engines,
then **download** low-res scans as positionals. Corbis finds CD ROMs the only
viable media for delivering high-res scans, ISDN,· with bandwidth
constraints , currently being too slow.

Asset Management, and Medical and Defense Applications

CAMPBELL, Calif., July 13 /PRNewswire/ -- Live **Picture** , Inc., the leader in Internet imaging, today announced it is shipping the powerful new Enterprise...

...APIs that support integration with enterprise imaging systems, electronic commerce servers, and databases. The Developer **Edition** is a limited-capacity version of the Open Enterprise **Edition** designed for system integrators, value-added resellers, and independent software vendors to develop extensions and...
...the image server into rich, high-speed, enterprise applications.
The Live Picture Image Server - Enterprise **Edition** is ideally suited for applications that require controlled or monitored access to large image collections, high-value images, or extensive Web catalogs. The Enterprise **Edition** enables network operators to distribute multiple resolution versions of an image from a single stored file. Virtual directories give Enterprise **Edition** customers the flexibility to store and manage images across different multiple disks or servers. In...

...optimizations allow the Live Picture Image Server to fully leverage an enterprise network's available **processing** power, while on- the-fly digital watermarking helps protect and track images.
With the Open Enterprise **Edition** , Web site developers can build linkable "hotspots" into images, which can query a database and...

...an audio track explaining the stereo's features.
Since the worldwide debut of the Standard **Edition** Image Server at DEMO '98 in February, dozens of organizations have incorporated Live Picture Image...

...Image Servers are based on the industry-standard Flashpix image file format and Internet Imaging **Protocol** (IIP). Developed by Live Picture in collaboration with Hewlett-Packard, Kodak and Microsoft, Flashpix and...

...the specified area of the photo.
Pricing and Availability
The Live Picture Image Server - Enterprise **Edition** , Open Enterprise **Edition** , and Developer **Edition** are available today, and are priced from $20,000 to $60,000 depending on server configuration. The Standard **Edition** is priced from $2,999 to $20,000. Free 30-day trial versions of the Live Picture Image Servers (Standard **Edition** , Enterprise **Edition** , and Developer Edition) is available and can be downloaded via the Live Picture web site...

SECTION HEADING: News
WORD COUNT: 465

     Dubbed **ImageAnyware** , Canon plans to implement its existing and new
technologies into copiers, fax machines, printers and...

...and chief executive at Canon USA.
     Using a smart peripheral, customers will be able to **download** office
or computer files over a copier, scanner or **printer** from any **location** .
Moreover, customers will be able to access the network, E- mail or the
Internet from...

...that it had arrived," he continued.
     Two-way communication will take place via a SNMP **protocol** .
Amorosano also said Canon may integrate voice recognition technology in
the devices.
     The strategy focuses...

...management, Canon will integrate its NetSpot and WebSpot software.
Imaging software applications include Canon's **Image** Management System,
Document Distribution Systems and **Image** Distribution Systems. Canon's
imaging equipment includes laser beam printers, color laser printers,
facsimile devices, scanners, digital cameras and **image** **processing**
technologies. Canon's System Architecture will be based on industry
standard interfaces and tools, executives...

...third-party development, acquisitions, joint-ventures, alliances and
partnerships.
     For VARs and integrators, Canon's **Image** Platform will allow them to
combine certain components in a way that best suits their...

...those specializing in network system integration and document imaging.
     The first products based on the **ImageAnyware** strategy will be
available in the first half of 1998, said executives. The company
previewed...

**'Just-in-time' digital printing technology: reduced inventory costs, short
cycle time.**
Saccomano, Ann
Traffic World (Traffic World) v. 241 (Feb. 13 1995) p. 50-2
LANGUAGE: English
WORD COUNT: 2208

   (USE FORMAT 7 FOR FULLTEXT)

TEXT:
...   the cycle time, the two concepts complement each other. Digital
printing customers can print catalogs, **instruction** manuals, warranties
and other documents as they are needed, where they are needed and in...

...You needed a substantial print run to justify the cost, but now a
four-color **process** in smaller quantities is possible."
   Perishable goods already are becoming a customer base for digital...

...happening is the printing industry is extending its services beyond just
printing. They are now **handling** value-added services."
   Unlike offset printing, the standard **process** for producing
high-quality printed materials, digital printing has no economy of scale.
For that reason, it's best suited for **handling** print runs of 10,000 or
less. The cost of a four-color digitally printed...it can be stored in an
inventory database, a software manufacturer who needs to print
instructions can match just-in-time production schedules with printed
materials."
   A drawback to digital printing...

...produce large volumes of documents over time make a lot of changes. The
price changes, **speci**fications change. A lot of files end up being thrown
out."
   Today's debate over the...

...becomes a best-seller, its sequel will be digital copying.

   Digital copying, or scanning, combines **photography** and computing.
An optical scanner **photographs** a paper document while a software program
feeds the **image** into a computer. Now transformed into a computer
document, the information can be **edited** , saved or copied just like any
other computer file. The paper version goes into the...
...by document type and trip number. Once scanned into a company's
computer network, the **images** can be routed electronically to corporate
departments.
   "This is the only technology that addresses the...

...them. Now we don't have any pieces of paper at all in the billing
process . Billing and payroll had been real paper-intensive **processes** ."
   Ferdig said his company had looked at other scanning systems, but
Information Solutions' experience in...

...re down 20 percent in the number of people involved in billing and
driver payroll **process** . Their time is spent billing instead of filing."
   -- by Ann Saccomano

   CONTRACT DIGITAL PRINTING NOW...

...For companies that want to print on demand but don't want to manage the **process** themselves, a third-party provider is already on the scene.

Created last October, the Worldwide...both the marketing and technological areas. WEPN has created a strict set of standard operating **procedures** for the transferring of electronic documents in order to ensure quality control for its clients...

**Technical communicators and the National Research and Education Network -
   opportunity knocks.**
Kahn, Russell L.
Technical Communication, v39, n1, p14(8)
Feb, 1992
ISSN: 0049-3155   LANGUAGE: ENGLISH   RECORD TYPE: FULLTEXT; ABSTRACT
WORD COUNT: 5450   LINE COUNT: 00452

...   for the NREN and a history
      of networking. 2. A discussion of key concepts and **policy** issues as
      they relate to the technical writing profession
      placing these issues in the framework...online databases, even
question other editors and experts by sending messages over the system. The
 editor could then send the reworked article back to the author for
further review. The article...

...be published online or distributed to a select mailing list for review
and comment. Many **editing** programs already available allow **editors** to
"comment out" the original file so the author will know what changes were
made...
...to resolve any serious considerations and problems (video
teleconferencing could also be integrated into this **process**). But the
increase in efficiency and the time and fuel save for all participants in
such a **process** would be profound and, it would seem, easily outweigh any
potential drawbacks.   -
      Because the NREN...

...would be straightforward for them to send the reports of their
experiments directly to an **editor** after running the code or experiment.
And if **editors** want to verify that the report correctly portrayed the
experiment's results, they could request...

...code themselves in the same computing environment in which the
experiment was first run.
      This **process** could enormously help **editors** become much more
active players in the software development team. As Laura L. Bresko noted
...

...work, "computing is a communications function, and therefore
communications experts should be involved in the **process** [13, 219]."
      The shift in the direction of networked research and development has
often been...
...networks [14]."
      All this collaboration could be done from the privacy and comfort of
the **editor** 's home, located anywhere a phone line is available. **Editors**
and authors can save the time and expense involved in travelling to work,
and businesses...

...well the damage and stress that can occur when we rely on computers and
word **processors** . Recently, this problems has been magnified by the
introduction of viruses - computer programs that are...sell ourselves as
"learning experts." Not only do we know how to aid the learning **process**
for others, but we are also experts at learning quickly (even from poorly

written materials...

...High-Performance Computing Program," EDUCOM review (Summer 1990): 23.

...with turn-key solutions. For a customized print communications program,
for example, the agency will **handle** all aspects of the project, from
strategic and database development to document design and file preparation
for digital color printing.

Customer **criteria**
Current clients include high-tech marketing firms, seed companies,
insurance providers, pharmaceutical companies and graphic arts operations.
(See customer **profiles** on pages 37, 38 and 67.) "We don't specialize in a
particular industry," Lewis...

...example, they can specify that photo 22 of 29 should be used if the
following **conditions** are met," Lewis explains.

All high-res images remain in the database during document production...

...just prior to printing.

Next, Relationship Marketing uses a recently installed Agfa IntelliPrep
workstation to **process** the document and necessary data. "IntelliPrep
allows us to merge the variable data and graphics...

...gives us an added measure of control," Lewis remarks. "We used to have
the printers **process** our files, but, since we're the database
specialists, we felt we'd be better off doing it ourselves." In-house
processing has allowed Relationship Marketing to reduce both chance of
error and overall costs, he confirms...
...Chromapress printing," Lewis summarizes. "We can do all of design and

RIPing, which simplifies the **process** , and we have access to any Chromapress site." As a result, Lewis notes, the printer...

...it is great for personalized communications," he declares.

File on: Novartis Seeds

Novartis Seeds

Company **Profile** : seed company (Minneapolis)

Printed Materials: seasonal product mini-catalogs (initial catalog: Fall 1997)

Target Recipient: agribusiness owners

Print Run: 46,000

Program Goal: To facilitate the ordering **process** for individual farmers for each planting season
"The Novartis program has garnered a lot of...

...selling, and even CSRs were more careful about order accuracy." --DG

File on: Rogers

Company **Profile** : vegetable seed company (Boise, ID)

Printed Materials: newsletters

Target Recipient: vegetable producers

Print Run: 1...

...Relationship Marketing put into place a program that targeted both Rogers' dealers and end users.

 photo omitted

"Rogers uses an independent distribution channel; its dealers can sell any number of brands...
...individualized newsletters-each including products recommended specifically for that customer, accompanied by high-quality color **photos** .

The agency also encouraged reps' active and ongoing participation in the project, allowing them to write cover-letter copy, pick the name of their newsletters, supply their own **photos** , etc. So, for each piece, Lewis reports, "the title is variable, the dealer name is...

...identity) is variable, the product info is variable and additional info, such as local growing **conditions** , is variable." Each piece contains information about Rogers on the back.

An entire series of...

...we're starting the second one now," Lewis reports. --DG

File on: ARAG Group

Company **Profile** : group legal-insurance provider (Des Moines, IA)

TEXT:
...through ActiveX or Java, such as Rumba Office from Wall Data Inc. in
Kirkland, Wash.

 photo omitted
Java and ActiveX terminal emulation has one major advantage over HTML-based
access to...

...an enhanced Web interface to existing terminal applications, with
elements such as control buttons for **handling** special keyboard **commands**
 and PFs. But Rumba Office must be installed and licensed on each desktop
before it...

...Web applications, linking them with logic running on the Extra! HPS
server. Extra! HPS can **handle** up to 250 concurrent connections per
server.

There are several advantages to this approach. First...

...HTML, but it can also use Java applets and communicate through the
Internet Inter-ORB **Protocol** (IIOP) or Remote Method Invocation (RMI).
Also, ForeSite has its own application-integration tool, and...

...the others as backups -- to broker incoming application requests, one
or more PageServer systems to **handle** the applications, and System

Integration Modules (SIMs) to connect the PageServers to data sources. Fore
...
...application, and link them to a dynamic HTML document. The document is based on a **template** , which can be modified in any HTML **editing** tool to make the application look like the rest of the corporate intranet or Internet...

...available Page-Server with the application. All of the interface is interpreted into HTML and **sent** to the browser client as a **Web** **page** .

Java **developers** can build ForeSite applications as well; Fore-Site's JavaBeans SIM can be integrated into...

...server for their application connection, going directly to the Dispatcher server via IIOP or RMI.

photo omitted

Write Once, Run Many

Infresco's Opal v. 2.0 takes a slightly different...

...have to rely on other software for that connectivity, and on separate security schemes to **handle** user validation.
Flexible Approach

Tools such as WebConnect Pro, Extra! Host Publishing System, Fore-Site...

TEXT:
...   medium for graphic communication. However, designers have been
forced to work around the Web's **limitations** in displaying and printing
images. In this special report, we examine the efforts of Kodak...

...at the recent Seybold San Francisco conference. Live Picture and
Microsoft announced consumer-level image- **editing** products that take
advantage of the format, and Hewlett-Packard and Live Picture demonstrated
its...

...the appropriate resolution and tiles for your screen display,
eliminating the need to rebuild the **image**   each time you change views. Any
changes to the **image**   are recorded in a script that's part of the file,
but separate from the **image**   itself. You can thus work with a
lowresolution version of the **image**   and have the changes applied to the
other versions.
    At Seybold, HewlettPackard and Live **Picture**   demonstrated a
FlashPixbased technology called Imaging for Internet that uses a browser
plug-in and server module as its main components. When browsing a Web page
that includes a FlashPix **image** , you'll see a version of the **image**
suitable for screen display. If you want to print the Web page, the server
module...

...lining up to offer products that take advantage of the FlashPix
technology. Kodak envisions Internetbased **photo** libraries and **photo** -
processing services, and is counting on FlashPix to be
    a "killer app" that inspires masses of consumers to discover digital
imaging. One advantage of FlashPix is that it allows **images** to be
manipulated on consumer-level systems with limited memory. Both LivePix and
 Picture It are aimed squarely at the consumer market with under$100 price
tags.
    If FlashPix takes off the way its developers expect, Live **Picture**
could be the big winner. Its previous **imageediting** software was built

Caryn S. Wesner-Early EIC 3600   06-May-05   page 8

around a format similar to FlashPix, and the new LivePix package supports
. . .

. . .and has enough backing from industry heavyweights to supplant GIF and
JPEG as the dominant **image** format on the World Wide Web.

TEXT:
... IPO) is also sponsoring a set of meetings to consider a possible
supplementary agreement (a " **protocol** ") to the Berne Convention (the
principal international treaty on copyright law) to deal with digital...

. . .issues addressed in U.S. documents, but some do not.
 Also noteworthy is the different **policy** emphasis of the European
Green Paper. Unlike the U.S. initiative that the Europeans perceive...

. . .fixated on construction of pipes and wires of infrastructure, the
Europeans pride themselves on developing **policies** that will build a new
information society. Sadly, both documents seem to envision the information
. . .Paper differs from the U.S. White Paper lies in its discussion of the
cultural **policy** dimensions of copyright and in its recognition that new
technology raises significant user privacy concerns...in digital networked
environments that the U.S. White Paper (along with the other governmental
policy documents on digital copyright issues) has not, but should have,
addressed.
 An issue very much...

. . .put up at these sites in the first place (as well as the larger public
policy goal of enhancing public access to information).
 Because copyright law automatically protects original works from...of
being "read" and implemented by servers on the network by means of standard
technical **protocols** incorporated in the code constituting documents put
up at the site. (This might, for example...

. . .accomplished through an extension to the hypertext markup language
establishing a standard set of html **protocols** for indicating an intent to
permit or restrict caching and the like.) In this manner...

. . .Digital forms of information, especially when available in networked
environments, permit the disaggregation of information **processing**
functions. With printed books, a final product that is distributed in the
market may have...about which people in the technical community can make
substantial contributions that affect intellectual property **policy**
-making.

The fruitfulness of exchanges between technical people and intellectual property professionals was well illustrated...

...where technologists and copyright professionals met to explore how to achieve technically sensible and balanced **policy** positions on intellectual property **policy** in a manner that greatly benefited from the melding of different expertises
    1

Good intellectual property **policy** -making for the age of global digital networks cannot be made without a deep understanding of current and foreseeable technological developments. Governments would do well to open up their deliberative **processes** about intellectual property **policy** -making to more input from the technical community. It is more important to adopt well...

...in the technical community can and should make an effort to be involved in this **policy** -making **process** . The information future you save may be your own.
    Acknowledgments
    I want to thank Klaus...

Search Tips

Folder is empty.

No results were found for your search query.

You may want to try your search again after following one or more of these tips:

- Check the spelling of your search terms. Correct any misspellings and re-run the search.
- To broaden your search, use the Boolean operator OR. For example, type: Siamese OR cats.

See hints for suggestions.
